DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in telephone interviews with Paul Teng on 3/10/2004 and 3/23/2004.

Cancel claims 7-10, 19-21, 28-58.

Amend claims 1 and 2 as follows:

Change "in which" in line 2 to read "containing".

Response to Arguments

- 2. Applicant's arguments, see page 13-16, filed 10/27/2003, with respect to claims 1-6, 11-18, 22-27 have been fully considered and are persuasive. The rejection of these claims has been withdrawn.
- 3. Claims 1-6, 11-18, 22-27 are allowed.
- 4. The following is an examiner's statement of reasons for allowance:

Application/Control Number: 09/981,848

Art Unit: 1765

In regard to claims 11-18, the prior art has not suggested the claimed method of claim 11 for growing group-III nitride crystals from a liquid phase (as described in the specification). In particular, the closest prior art of Gavrilin et al. does not suggest the up-down cycling of temperature and pressure during the growth process. In regard to claims 1-6, Gavrilin et al. has no requirement that the alkaline metal vapor stay within the vessel or be prevented from blocking the zone through which the nitrogen material enters the vessel. In regard to claim 22-27, Gavrilin et al. does not disclose the controlled nitrogen concentration distribution as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
